

Tornado – A revolution in mobile gas fired space heating

- Direct or indirect firing on the same unit
- 50kW heat input
- 100% thermal efficiency - only when direct fired
- Ideal for heating or drying workshops, warehouses, exhibition halls and new buildings
- No naked flames - safer than traditional models
- Easy to use
- High volumes of warm clean air (5000m³/hr)
- Minimal service requirements
- Optional flexible flue, air inlet and discharge ducts (up to 10m)
- Quiet in operation
- 240/110V
